SnowPro Core v1.0 (SnowPro Core)

Question 21 (Single Topic)

Which of the following statements describes a benefit of Snowflake's separation of compute and storage? (Choose all that apply.)

A. Growth of storage and compute are tightly coupled together
B. Storage expands without the requirement to add more compute
C. Compute can be scaled up or down without the requirement to add more storage
D. Multiple compute clusters can access stored data without contention

Answer : **BCD**

Question 22 (Single Topic)

True or False: It is possible to unload structured data to semi-structured formats such as JSON and Parquet.

A. True
B. False

Answer : **A**

Reference:
https://docs.snowflake.com/en/user-guide/data-unload-prepare.html

Question 23 (Single Topic)

In which layer of its architecture does Snowflake store its metadata statistics?

A. Storage Layer
B. Compute Layer
C. Database Layer
D. Cloud Services Layer

Answer : **D**
